SKILLS

- Proficient in Java programming language
- Strong understanding of object-oriented design principles and design patterns
- Experience with Spring Framework (Spring Boot, Spring MVC, Spring Data)
- Knowledge of web development technologies such as HTML, CSS, and JavaScript
- Proficiency in database management systems including DB2, Sybase, and MongoDB
- Experience with version control systems (Git, SVN)
- Experience with JIRA and ServiceNow
- Ability to work in an Agile development environment.
- Excellent problem-solving and troubleshooting skills.
- Strong communication and collaboration skills
- System acceptance
- Multithreading and Concurrency
- Teamwork and Collaboration
- Self Motivation
- Goal Setting

PROFESSIONAL SUMMARY

Highly motivated individual with experience in developing and implementing software solutions. Proven expertise in developing, testing and debugging high performing software solutions with a keen eye for detail. Skilled in object-oriented programming, web development and database technologies. Excellent problem-solving and communication skills and demonstrates a passion for learning and implementing new technologies.

EXPERIENCE

February 2022 - Present

Java Developer

MThree/Morgan Stanley, Montreal, QC

- Developed and maintained Java-based backend applications using Spring Framework
- Utilized DB2 for database management and optimization in various projects
- Collaborated with cross-functional teams to define and prioritize software requirements
- Conducted code reviews and provided constructive feedback to team members
- Optimized application performance and scalability through code refactoring and performance tuning
- Implemented unit tests and participated in test-driven development practices to ensure code quality
- Assisted in troubleshooting and resolving production issues in a timely manner.

EDUCATION

December 2021

Bachelor of Computer Science Honours

Algoma University, Sault Ste Marie

May 2018

Diploma in Computer Engineering

Humber College, Toronto
